EDUCATION

American International University-Bangladesh (AIUB) <i>Bachelor of Science in Computer Science and Engineering CGPA: 3.91/4.00</i>	Dhaka, Bangladesh Sep. 2022 – Apr. 2026
BAF Shaheen College Dhaka <i>Higher Secondary Certificate (HSC), Science GPA: 5.00/5.00</i>	Dhaka, Bangladesh June 2019 – Dec. 2021

EXPERIENCE

Ledgercross <i>Software Developer Trainee</i> - Built MERN-based business systems and authored 246 automated pytest cases for backend workflows. - Engineered AI invoice processing pipelines using Python, FastAPI, Mindee OCR, PostgreSQL, and Redis Streams. - Developed FUMAK, a client inventory and POS system with Android barcode scanning and stock management.	Dhaka, Bangladesh May 2026 – Present
Bangladesh Software Solution (BSS) <i>Software Engineer Intern</i> - Developed responsive, cross-browser frontend interfaces utilizing HTML5, CSS3, and JavaScript (ES6+). - Integrated frontend layout structures with backend RESTful APIs with rigorous error handling pipelines. - Collaborated in agile development workflows utilizing Git for version control and deploying layout systems.	Dhaka, Bangladesh Feb. 2026 – Apr. 2026

PROJECTS

InvoicePilot (Ledgercross Product) <i>Python, FastAPI, Mindee OCR, PostgreSQL, Redis</i> - Built an AI invoice processing microservice for OCR extraction and structured data generation. - Implemented invoice normalization, validation, duplicate, fraud, and anomaly detection rules. - Developed an 11-stage pipeline with Redis Streams for synchronous and asynchronous processing.
FUMAK Inventory & POS System (Client Project) <i>Kotlin, Android, Next.js, PostgreSQL</i> - Built an inventory and POS platform with Android barcode scanning, stock management, and sales analytics. - Integrated ML Kit, Prisma, Neon PostgreSQL, and Cloudflare R2 for core workflows.
LedgerTurf <i>React, Node.js, Express, MongoDB Atlas, Redux</i> - Built a full-stack MERN turf booking ecosystem featuring geo-spatial MongoDB 2dsphere indexing. - Eliminated booking race conditions and scheduling conflicts via atomic database query validations.

TECHNICAL SKILLS

AI & Machine Learning: PyTorch, Hugging Face, Scikit-learn, OpenCV, CatBoost
Programming Languages: Python, Java, C/C++, C# (.NET), SQL, TypeScript, JavaScript, Solidity
Web Development: React, Next.js, FastAPI, Node.js, Express, HTML5, CSS3
Backend & Databases: PostgreSQL, MySQL, SQL Server, MongoDB, Redis Streams
Tools & DevOps: Git, Docker, Jupyter Notebook, Cloudflare R2

HONORS & AWARDS

5x Dean's Award Recipient & AIUB Merit Scholar <i>AIUB</i> Awarded 70% tuition waiver for academic excellence alongside 5 consecutive Dean's Award recognitions.	2022 – 2026
The Duke of Edinburgh's Bronze Award <i>AIUB</i> Completed rigorous requirements encompassing community service, skill development, and expedition tasks.	2025 – 2026

LEADERSHIP & EXTRACURRICULAR ACTIVITIES

Student Activity Coordinator <i>Space Innovation Camp</i> Led robotics and UAV engineering workshops, mentoring over 500 participating students.	2022 – 2025
Public Relations Representative <i>WRO Bangladesh</i> Coordinated media communications, outreach strategies, and logistics for national robotics competitions.	2023 – 2024
